

Technical Data Sheet

Category: Chemical

Product name:

N-Butyl Acetate

Characteristics:

Property	GOST 8981-78 for butyl acetate,Normal	Result
Appearance	Transparent liquid without mechanical impurities	complies
Colority, Hazen units,max	10	10
Density at 20 °C,g/m ³	0.880 – 0.882	0.880
Mass fraction of main substance,%max	99.0	99.6
Mass of fraction of acids in terms of acetic acid,%max	0.005	0.003
Mass fraction of non-volatile reminder,%max	0.002	0.001
Temperature range of distillation at a pressure of 101325 Pa(760mm Hg)95% (by volum) of the products must distill off within the temperature range,°C	122-127	123-126
Mass fraction of water,%max	0.08	0.03
Relative volatility(ethyl ether)	8-13	10
